DESCRIPTION OF FINISHES.

OUR REAL BRONZE GOODS

ARE FURNISHED IN EIGHT PRINCIPAL STYLES OF FINISH, NUMBERED AS FOLLOWS:

No. 1 Finish is Light Bronze.

No. 2 Finish is Dark or Statuary Bronze.

No. 3 Finish is Black on the Ground Work and Light on the Raised Surface.

No. 4 Finish is Nickel-Plated.

No. 5 Finish (used only on our "Leaf Pattern" Goods) is a combination of No. 1 Finish on the plain, and No. 2 on the ornamental portion, producing a unique and beautiful effect.

No. 8 Finish is Chocolate Background, Light Raised Surface.

No. 20 Finish is Oxidized Copper.

No. 30 Finish is Oxidized Silver.

NO EXTRA CHARGE FOR 1, 2, 3 OR 5 FINISH.

ANY OTHER FINISH FURNISHED TO ORDER.

☞ ORDERS SHOULD STATE THE FINISH DESIRED, OTHERWISE No. 1 OR LIGHT BRONZE WILL BE SENT. ☜

OUR IRON GOODS

ARE FINISHED IN THE FOLLOWING STYLES:

PERSIAN BRONZED OR No. 11 FINISH.—Same as that called "Tucker," "Amber," "Kahala," and "Berlin" by other makers.

BRONZE PLATED OR No. 12 FINISH.—The Surfaces are Electro-Plated in Imitation of No. 1 Finish in Real Bronze.

EGYPTIAN BRONZED OR No. 13 Finish.—Electro-Bronze Plated Raised Surfaces and Black Background.

ENGLISH BRONZED OR No. 14 Finish.—Coppered Raised Surfaces and Black Background.

DOOR KNOBS.

All the tops of Mineral, Jet, and Porcelain Knobs, put up in Boxes with Labels bearing our Name, are fastened to their necks, or shanks, with LEAD, *making it almost impossible to separate them without breaking the top.*

Our Knobs are arranged to extend on their Spindles, as follows:

Mortise Knobs extend 1 inch, viz.: From 1 to 2 in.; from 1¼ to 2¼ in., etc.

Rim Knobs extend ¾ inch, viz.: From 1½ to 2¼ in.; from 1¾ to 2½ in., etc.

Mortise Crank Handles extend ½ inch, viz.: From 2 to 2½ in.; from 2½ to 3 in., etc.

Rim Crank Handles extend ¼ inch, viz.: From 2½ to 2¾ in.; from 3 to 3¼ in., etc.

French Window Crank T Handles extend ½ inch, viz.: From 1 to 1½ in.; from 1½ to 2 in., etc.

Mortise Closet Knobs extend ½ inch, viz.: From 1 to 1½ in.; from 1¼ to 1¾ in., etc.

Rim Closet Knobs extend ¼ inch, viz.: From 1½ to 1¾ in.; from 1¾ to 2 in., etc.

Turnbuckle Knobs extend ½ inch, viz.: From 1 to 1½ in.; from 1½ to 2 in., etc.

In ordering Knobs, always give the thickness of the Doors for which they are wanted.

DOOR KEYS.

All of our Keys are listed blank, but will be cut for any one Tumbler, as may be ordered, at an additional cost of 15 per cent., *and* 10 per cent. *for each additional Tumbler. Orders should contain the* Class Number, *the* Lock Number, *and the* Number on the Key.

Many of the engravings on the following pages show Tumbler cuts for particular locks, but the same Keys, when blanks, can be cut to fit various locks, as shown by numbers in the succeeding tables.

All Locks with one Tumbler, *except a few cheap numbers with Levers, are packed with at least* 12 Changes *to the dozen. Those with* more than one Tumbler *have an increased number of changes.*

To show that the Locks packed in one box are different from those in other boxes, a figure: 1, 2, 3, or 4, etc., is printed on each label.

PLAIN AND ORNAMENTAL BRONZE METAL

Combined Letter Boxes

WITH MOUTH PIECES AND LEVER BELL PULLS OR ELECTRIC BELL PUSH BUTTONS,

FOR APARTMENT HOUSES, FRENCH FLATS, ETC.

(See cuts on page 340.)

This handsome article is made with a Bronze Metal Front, containing the Drop Letter Plate and Door to the Letter Box, a Panel for inserting Name Card, and a separate Mouth Piece and Lever Bell Pull or Electric Bell Push Button, communicating with the apartments to which the Letter Box belongs.

The Door is provided with an extra safe Tumbler Lock, with two Flat Steel Keys.

Each Box is independent and one or more are mounted upon Black Walnut, Ash or Cherry Wood Frames, to order, ready for attachment to the wall.

If Wood Frames different from the above (Black Walnut, Ash or Cherry) are wanted, we will quote prices on application.

COMBINED LETTER BOX, MOUTH PIECE AND LEVER BELL PULL.

ALARM DOOR GONGS.

Applicable for the Doors of Stores, Offices and Dwellings where it is desirable that no one shall enter without giving an alarm to the inmates. Particularly adapted as a

BURGLAR ALARM,

or for a protection against sneak thieves, as it is impossible for any one to open the door even half an inch without sounding the alarm. **Nothing can be Inserted from the Outside to Prevent its Action.**

It is applicable to the Side of a Door as well as to the Top, and also to either Right or Left Hand Doors. All other Alarm Gongs can be used at the Top of the Door only.

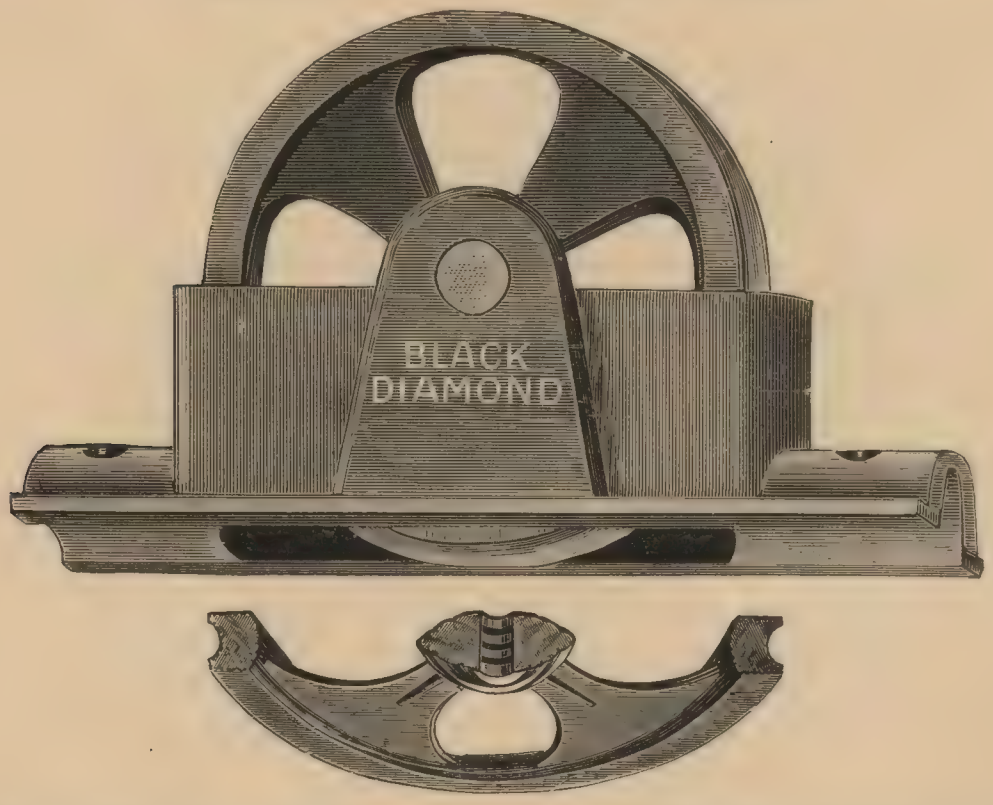
"BLACK DIAMOND" SLIDING DOOR SHEAVES.

A SUPERIOR ARTICLE FOR HEAVY DOORS.



Section showing working part of Wheel. The center is solid, of Black Diamond Steel, with grooves cut to contain a Lubricating Compound. This Sheave must never be oiled, as the Compound will last for years. The shaft is made of Black Diamond Steel, and is almost entirely frictionless. The Wheels are turned and are fitted to the frames with great care and accuracy.

	PER SET OF FOUR.

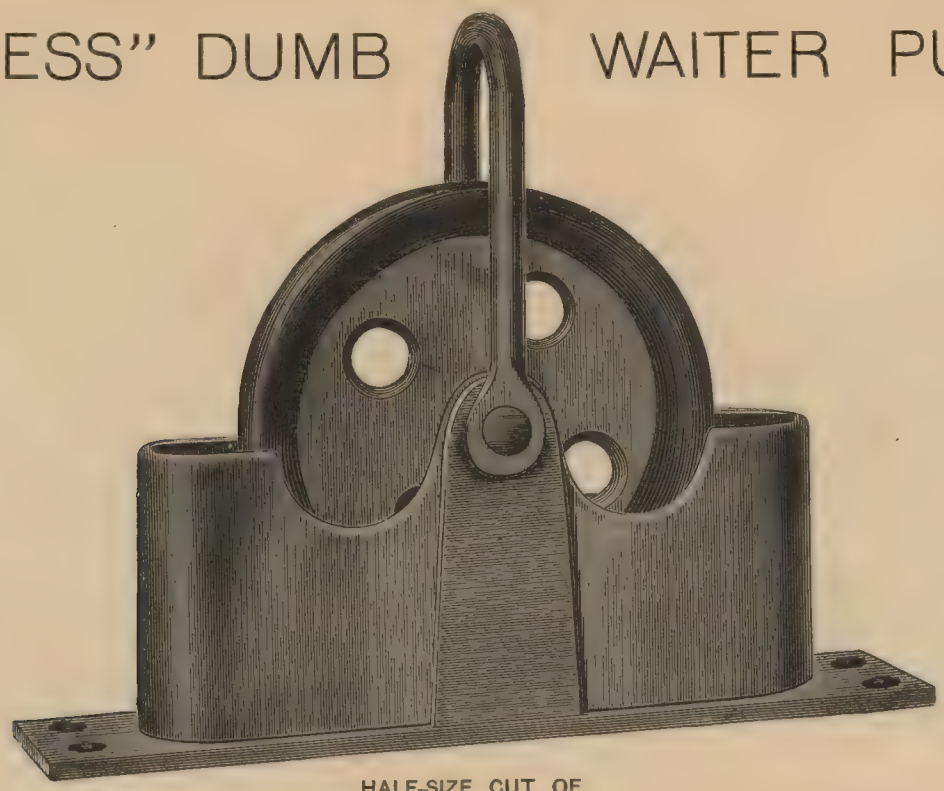
50	4	Runs 4 Feet.....	

The Axle of the Common Sheave turns in its Socket, and the friction wears it away until the settling of the Door brings it in contact with the Track.

This will not occur with these Sheaves, if not used for a longer run than is indicated by mark on them.

"PEERLESS" DUMB WAITER PULLEYS.



HALF-SIZE CUT OF

No. 1.

These Pulleys can be applied without cutting away the wood, the wheel being placed high enough in the case to allow the rope to pass under. The top Pulley is made with Wrought Iron Loop (see cut) to fasten the rope directly in the centre of the Dumb Waiter. These Pulleys are noiseless, run without friction, and are superior to any others in the market.

THE "CHAMPION"

NOISELESS WINDOW PULLEYS

WITH BRASS AND BRONZE WHEELS.

Our Brass and Bronze Metal Wheel "Champion" Pulleys are made with Bushed Centres. They are a superior article. Especially adapted for the heavy sashes used in first-class dwellings, stores, and public buildings, as the Bushed Centres make them the most durable Pulleys in the market.

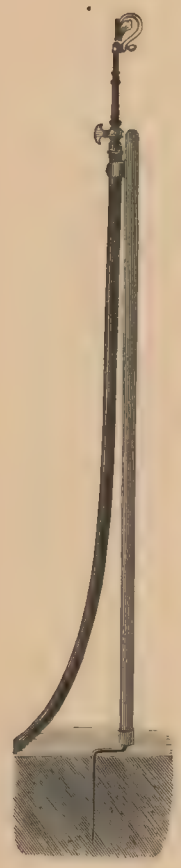
Merrill's Rotary Lawn Sprinkler.

Patented July 9, 1878.

ESPECIALLY DESIGNED FOR SPRINKLING GARDENS, GRASS PLATS, PARKS, ETC.

It can be attached to the nozzle of any hose in an instant, and, when supported by a standard, will distribute more water, do it more uniformly and thoroughly, and cover a larger area of surface than any other Lawn Sprinkler in the world.



IT WILL SAVE NINE-TENTHS OF THE LABOR USUALLY REQUIRED, AND IS SOLD SO CHEAP THAT NOBODY CAN AFFORD TO BE WITHOUT ONE.

The distinctive feature of this Sprinkler is the method of converting the solid stream of water after it leaves the nozzle into a

FINE SPRAY

which is thrown to a great distance, in every direction, by the rotary action of the Sprinkler. With our ordinary city water pressure the spray will be

Evenly distributed over an area of from 1200 to 1600 square feet of ground.

With this Sprinkler a very material change from the usual mode of sprinkling lawns and gardens is practicable, it being as far in advance of the capacity of the spray nozzle or perforated sprinklers, as they are of the old hand watering pot; for, instead of continual handling and manipulation, the great range and extraordinary scattering capacity of the Merrill Sprinkler admits of its remaining for a considerable time in one position, fixed upon a standard, and requiring only occasional attention to move it from one place to another, when it has sufficiently watered the field within its scope, thereby saving more than **nine-tenths** of the personal attention and labor.

This is the only Sprinkler manufactured that will not clog with leaves or grass.
